SUMMARY

Industrial Engineering graduate from **Universitas Gadjah Mada** with experience in **performance management and operational analysis** within the FMCG industry at Kalbe Nutritionals. Experienced in **manufacturing plant operations**, including **KPI monitoring**, **operational data analysis**, **gap and cost analysis**, and supporting **improvement initiatives**. Strong analytical and strategic thinking skills with a focus on driving operational performance and data driven decision making in large scale organizations.

EDUCATION

Universitas Gadjah Mada

Bachelor's Degree in Industrial Engineering. CGPA: 3.62/4.00

Aug 2021 – June 2025

Achievement: English – Proficient (TOEFL ITP Score: 573), **Top 10 Product Design** Competiton TI USU 2024, **Top 4 Industrial Simulation Competition** and Event 2023, **2nd Place Product Design** Project and Expo INDEX UGM 2022

SMA Negeri 1 Yogyakarta

Science Major

Aug 2018 – Apr 2021

WORK EXPERIENCE

Performance Management and Analysis Sr. Staff – Fulltime

PT Kalbe Nutritionals – Cikampek, Karawang

Dec 2025 – Present

- **Developed KPI, project, and performance monitoring systems** to track departmental targets, consolidate improvement progress, and support management reporting.
- Conducted **gap analysis** for **operational performance** to identify efficiency gaps, recurring issues, corrective actions, and continuous improvement opportunities.
- Developed and executed **improvement culture programs**, including Rule of the Game, scoring systems, and employee engagement initiatives to **strengthen continuous improvement participation**.
- **Led the Daily Management System and monthly performance reviews** with supervisors and plant heads to monitor KPI achievement, operational issues, and improvement progress.
- **Managed business process risk management at plant level** and supported performance dashboard integration by guiding departments in data collection, validation, and reporting.

Organization Development and Talent Acquisition – Intern

PT Garuda Yamato Steel – West Cikarang, Bekasi

Sept 2025 – Nov 2025

- Drove **improvement progress** on the new online recruitment test platform and performed **Workload Analysis** to support structural efficiency.
- Handled the **end to end recruitment process**, including publishing vacancies, CV screening, candidate outreach, interview scheduling, and assisting Interview resulting in hires and successfully sourcing 20+ screened candidates within one month.
- Conducted job evaluations and **formalized 100+ job position across 10 departments**.
- Coordinated **employee engagement** activities and training programs.

Pipe and Instrumentation Diagram Data Entry – Freelancer

PT Pertamina Hulu Rokan – Remote

Aug 2025 – Sept 2025

- **Managed the extraction of over 1,000 data points from P&ID schematics**, including critical information for more than 30 different types of equipment.
- **Ensured** high data integrity by populating a structured **database with asset tags, operational parameters, and location detail**.

Project Control – Intern

PT Kilang Pertamina Internasional – Kuningan, South Jakarta

Dec 2024 – Jan 2025

- **Conducted schedule simulations** for EPC (Engineering, Procurement, and Construction) projects, **identifying critical deviations to minimize timeline slippage and ensure adherence to deadlines**.
- Monitored ABI and physical progress for ongoing projects, **detecting early signs of delays and budget risks to support proactive adjustments**.
- **Documented 50+ lessons learned of EPC projects**, improving knowledge-sharing protocols for future project execution.
- **Contributed to risk management strategies**, where analysis demonstrated the potential to reduce **project schedule delays** by up to **90%** and **improve process efficiency** through proposed SOP updates.

Assistant Lecturer and Laboratory

Product Design and Development, UGM

March 2023 – Dec 2024

- **Created practice module, assignment, and quizzes for up to 100** undergraduate students.
- **Guided & trained groups of undergraduate students** on weekly practice and **5 of 3D Printing device**.
- Ensured **effective communication between faculty & student teams**, delegated tasks, monitored timelines, and guided **over 100 students** in understanding the **objectives & deliverables** of the exhibition.

Assistant Lecturer

Engineering Material, UGM

Feb 2023 – Jun 2023

- **Assisted & conducted mentoring sessions** to **help undergraduate students prepare the final exam**.
- **Evaluated the quizzes and assignments of up to 50** undergraduate students.

ORGANIZATION/COMMITTEE

Chronics UGM | Southeast Asia's Top Product Design Competition

Head of Liaison Officer

Nov 2022 – Sept 2023

- Facilitated cross functional collaboration **between participants, mentors, and judges** and **coordinated stakeholder engagement** for a regional competition with participants from 5+ Southeast Asian countries, liaising with **10+ industry leaders (e.g., Mattel, Masterkidz Indonesia, TMS)** to secure **mentorship and case materials**.
- Led a team of **10 liaison officers** to manage communication with **80+ registrants and auditing 100+ files**, ensuring clarity of competition guidelines and timely resolution of inquiries.

Industrial Engineering Catalyst UGM | Student Development Platform

Head of Management and Development

Jan 2023 – Aug 2023

- **Hired, managed and scheduled tutor of IEC** and **liaised** between tutors and the participant of the program by providing detailed activity information.
- **Managed to reach almost 150% target participant** of IEC 2023 of 3 classes that consist of **Business Class, Excel Class, and IELTS Class**.

Himpunan Mahasiswa Teknik Industri UGM | Student Association of Industrial Engineering

Staff of Event Creative Department

March 2022 – Dec 2023

- Arranged and **executed external events in collaboration with Paragon Corp**, including the “**Paragon Day**” career event. Developed the **event concept, prepared speaker TORs, and ensured smooth execution with 400+ attendees**.
- Arranged internal events at the department and alumni level, including **graduation and lustrum**, with up to **100 participants**. **Conceptualized event themes** and coordinated with **key stakeholders** such as guest stars and vendors.

PPSMB Kesatria 2022 | Faculty of Engineering's Student Orientation Program

Cofasilitator

May 2022 – Aug 2022

- **Guided and assessed the work of a group of 30+new college students** to **adapt to the Faculty of Engineering UGM** through **delivery materials** and other impactful activities such as **personal branding development, life planning workshops, problem solving exercises, and fostering critical thinking skills** to ensure a smooth transition into university life.
